The Columbia Book of Yarns

NEW EDITION
NEW IDEAS
NEW STYLES

ONCE upon a time, in the days when Fashions changed slowly, the fashions in Knitting and Crocheting scarcely changed at all. It's different today! Hand knit garments are appreciated more than ever, but they must reflect the mode of the moment. Milady loves her cozy wools so well that she must knit them up into articles as novel and fashionable as her best silk gown.

Thus it is that each new edition of the Columbia Book of Yarns is eagerly welcomed for its wealth of new ideas. It is the authority on knitting and Crocheting, and this season you will find it more interesting than ever, showing many new articles and new stitches.

Yet the Columbia Book of Yarns is not entirely a handbook for the experienced knitter. It is also

A Practical Patient Teacher for the Beginner

It has taught hundreds of women every step of the way, from the first stitch to finished and beautiful garments, and it is just as ready to teach you. Glance over the simple directions and the clear illustrations, do they not inspire you to begin pleasent lessons in this practical and useful art?

THE FIRST LESSON

and the one which no knitter should forget, is: Use Columbia Yarns! Beginner or expert, no one should waste time on yarns less lovely and less durable. Even poor knitting cannot disguise the beauty of Columbia Yarns. They are made of the best long-fibered wool,—soft, elastic, "lofty," as the wool men say, dyed to perfect color-tones. They knit farther and fuller than others. Their use means the utmost economy and satisfaction. Anything that is worth knitting is worth making from Columbia Yarns.

On the Choice of Yarn

THE beauty of the articles in this book comes of two things—hand work, and a fine yarn. A hand worker, with proper materials, will give her work a delicacy, a fineness of finish, a character that no machine-made work ever possesses. But she must look to her yarns to do it. She must find a lofty, elastic, even thread, soft and thin to the touch made of a wool sensitive to the slightest gradation of shade and color. The COLUMBIA YARNS were used in making all the articles in this book, and they meet the requirements. With them work in yarns becomes an art, and good results are easier and surer.

Stamped by public opinion as the best among yarns recognized as good, COLUMBIA YARNS cost in the beginning a trifle more than some others —otherwise they could not be what they are. In the end they are the cheapest of all. For the cheapness of a yarn is determined not alone by what you pay for a hank of it, but also by what the hank will do in quality, and quantity of work. The coarse, unelastic thread of a common yarn will not reach as far as a yarn of a finer texture, and besides, the COLUMBIA YARNS contain, pound for pound, more yards than common grades. In the finished piece of knitting or crocheting COLUMBIA YARNS mean not only quality but economy.

The brilliancy and shading in COLUMBIA YARNS is unsurpassed. There are no flat, crude, dead colors among them, partly because of the way they are dyed, and partly because of the quality of their thread. A fine wool receives a color and retains the brilliancy of it, where an inferior wool dyes into a lifeless, displeasing shade.

BLACKS in COLUMBIA YARNS are guaranteed fast.

In preparing for your work, therefore, you should get COLUMBIA YARNS. They are standard, even in quality, and when you get to using them you find they demand less of your patience because they do not vary from package to package. They are sold by the best retail stores throughout the country, with but few exceptions. Should your dealer not handle them, write to us and we will refer you to the nearest store that handles the complete assortment.

Explanation of Terms Used in Knitting and Crocheting

IN the following pages are found the first stitches in knitting and crocheting, the more complex stitches are made by various repetitions and combinations of the simple ones already given. Therefore you will find references continually to the first steps, and the references are abbreviated. Thus, "work Sg. C. or D. C." mean "work a single crochet or a double crochet"; the method of working these is explained on pages 11 and 12. The following is a list of the abbreviations used, with the explanation of them:

Ch.—Chain stitch. Explained on page 11.

Sl. St.—Slip a stitch. Explained on page 11 (crocheting) or page 9 (knitting).

Sg. C.—Single crochet. Explained on page 11.

D. C.—Double crochet. Explained on page 12.

L. C.—Long crochet. Explained on page 12.

T. C. or Tr. C.—Treble crochet. Explained on page 12.

P.—Picot

C.—Crochet.

Th. O.—Throw over.

Stars, thus * *, mean that the work described between them is to be repeated. They save unnecessary description where a row is the same as a preceding one.

Wrap—Means to throw yarn over needle.

The instructions for every article shown or referred to in this book were written from the original garment worked out with the size Needle or Hook mentioned therein.

We caution all Knitters and Crocheters who are inclined to knit or crochet tight to use a larger size needle or hook; and if loose a smaller size needle or hook; otherwise your garment will not work out in size according to instructions.

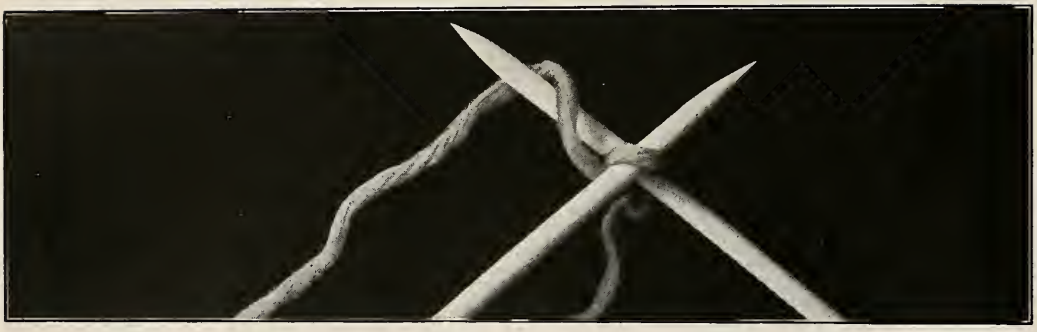
BASTIAN BROS. CO. ROCHESTER N.Y.

First Stitches: Knitting

TO CAST ON STITCHES



Make a loop in the yarn, and put it on the left-hand needle. Slip the right-hand needle into the loop, throw yarn around the point of right-hand needle, draw it through and slip that loop on the left-hand needle. Put the right-hand needle into the loop just made, and repeat until you have the required number of stitches.

TO KNIT PLAIN

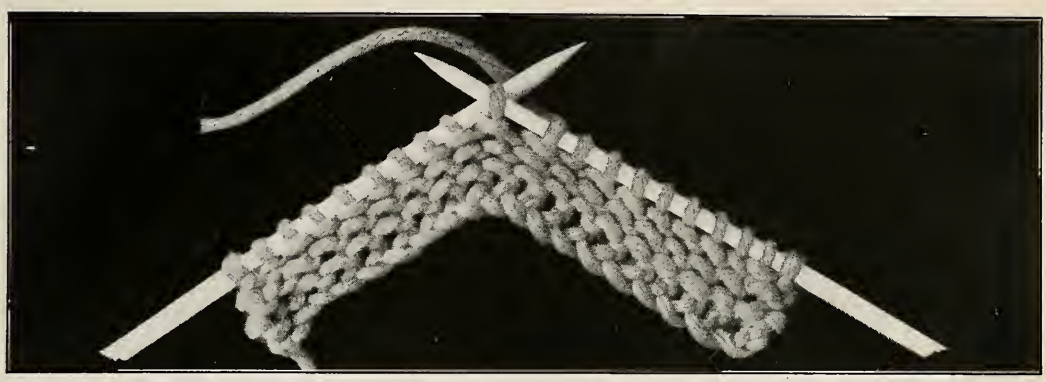
Having the number of stitches required on the left-hand needle, slip the right-hand needle into the last stitch made. Throw yarn over right-hand needle and draw through stitch. Repeat until all the stitches are on the right-hand needle.

TO PURL OR SEAM

Bring the yarn in front of the right-hand needle, take up the stitch on the left-hand needle by slipping right-hand needle into the front of stitch. Throw yarn around the back of needle as it passes in the stitch, catch it in, and take it off. Be careful always to carry the yarn back of the needle after a purled stitch before knitting a plain stitch.

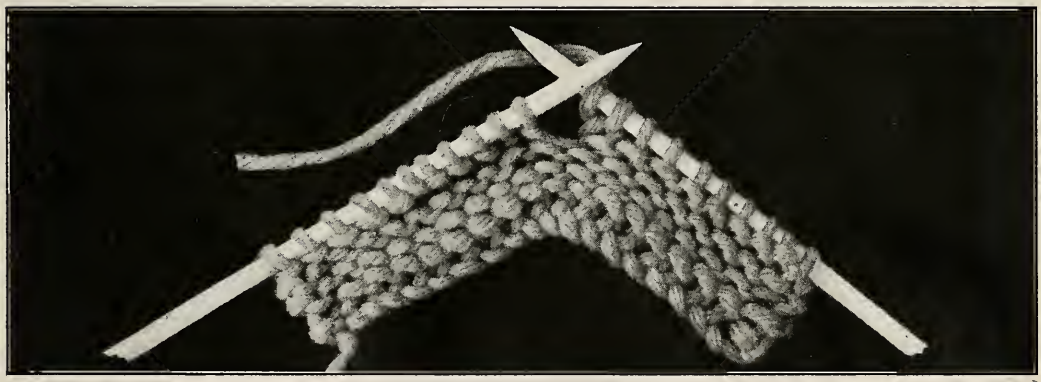
First Stitches: Knitting

TO SLIP A STITCH



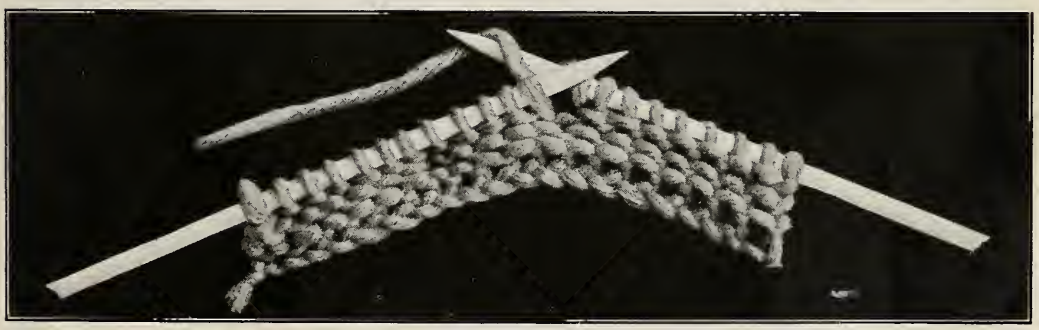
Take the stitch from the left-hand to the right-hand needle without knitting it.

TO MAKE A STITCH



To increase or make a stitch insert the needle in the stitch, make a stitch, then in the back of same stitch make another stitch, now slip the stitch off the needle, this gives you 2 stitches in 1. By this method of increasing a stitch, a stitch is added without making a hole in the work.

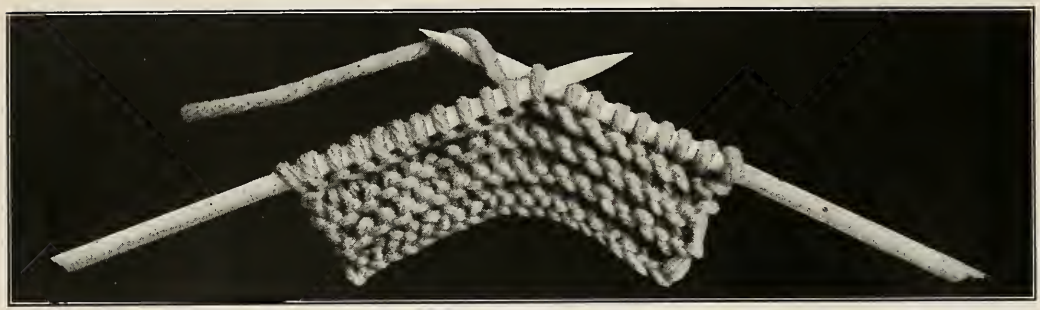
TO MAKE A STITCH WHEN PURLING



The yarn being already in front of the needle, must also be passed around the needle.

First Stitches: Knitting

TO MAKE A TWIST STITCH



Like plain knitting, except that the needle must be put in the back of the stitch. Then knit as usual.

TO SLIP AND BIND

Slip the stitch from the left-hand to the right-hand needle without knitting. Knit the next stitch, then pass the slipped stitch over the knitted one.

Note.—Sometimes the slipped stitch is passed over 2 and even over 3 stitches knitted together, where it is necessary to decrease the number of stitches.

TO BIND OFF

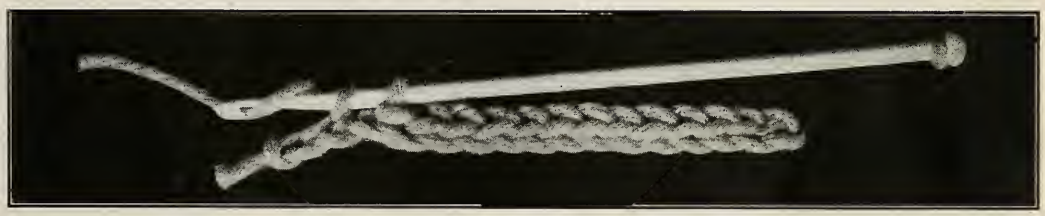
Knit the first 2 stitches, pass the first stitch back over the second stitch, knit 1 stitch, pass the stitch on the right-hand needle over it, and repeat until but 1 stitch remains. Draw yarn through and break off.

First Stitches: Crocheting

CHAIN STITCH

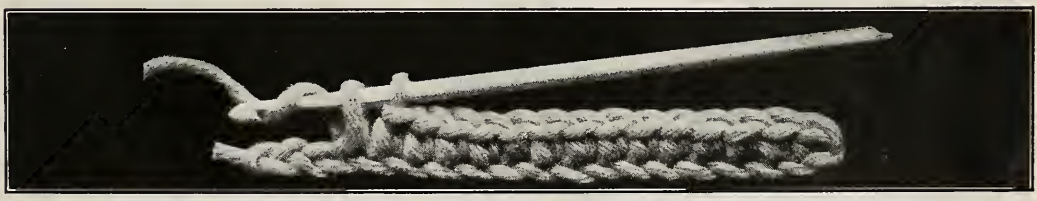
Make a series of loops, drawing each loop through the preceding one.

SLIP STITCH



Skip first stitch of chain. Insert the hook in next stitch, throw yarn over hook and draw through both loops on needle.

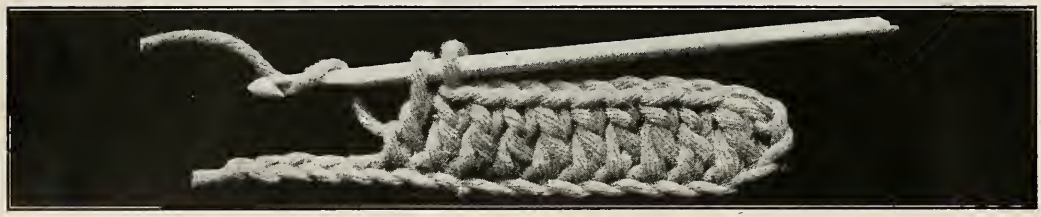
SINGLE CROCHET



Insert hook, draw yarn through, pass yarn around the hook, and draw it through both loops on the hook.

First Stitches: Crocheting

DOUBLE CROCHET



Pass the yarn around the hook, insert the hook, draw yarn through; pass the yarn around the hook and draw yarn through 2 loops and again through 2.

LONG CROCHET

Pass the yarn around the hook, insert hook, draw yarn through; pass the yarn around the hook and draw it through 1 loop, then through 2, then again through 2.

TREBLE CROCHET

Pass the yarn around the hook twice, insert the hook, draw yarn through; pass the yarn around the hook, draw through 2 loops, again through 2 loops, and again through 2.

INSTRUCTIONS

With 14 inch hook make a chain of 110 stitches.

Row 1—Draw a loop through every stitch of chain, leaving loops on the hook, (110) yarn over hook and draw through 1st stitch, * yarn over and draw through 2 stitches. Repeat from * until a single stitch remains on the hook. The loops thus drawn through look like upright stitches.

Row 2—Pick up each of these stitches, and draw a loop through, leaving each stitch on hook, yarn over and draw through 1st stitch, * yarn over and draw through 2 stitches. Repeat from * until a single stitch remains on the hook. Repeat 2d row until there are 5 rows of white.

Row 6—With pink yarn draw up 92 loops and work them off as before.

Row 7—Draw up 95 loops and work them off as before.

Row 8—Like 6th row.

Repeat the 5 rows of white and 3 rows of pink until the skirt is wide enough, letting the white come to the top of the skirt and join together.

Around Bottom—With pink yarn crochet 1 row of 1 D. C., then with white yarn 1 row of 1 D. C. on top of each pink D. C. (In the pink row use white ribbon and in white row pink ribbon.)

For the bias ruffle with 10 inch hook make a chain of 30 stitches. Draw a loop through every stitch of chain (30), and work them off as before, then make 1 chain, insert the hook under the top of first stitch and draw up a loop.

Continue until you have 30 stitches on the hook, then drop them off as before, being sure to drop off the 2 first stitches instead of 1 stitch in starting back as in body of skirt. Crochet 5 rows of white and 3 rows of pink, repeating until bias ruffle is long enough to go around the skirt. Crochet bias ruffle to the skirt with Sg. C. on the wrong side, being careful to have pink stripe in ruffle come opposite to the pink in skirt. Around bottom of ruffle with white yarn crochet 4 rows of shells of 4 D. C. Finish with pink. * On each white shell make a pink shell of 7 D. C., bringing the pink up on the right side between the white shells to bias ruffle by making a chain of two and catching between the first white shells, 2 chain catch between the next 2 white shells and so on till you get to the ruffle. Work back to the shell the same way. Repeat from * around ruffle. On top of skirt work a row of D. C. to run tape or ribbon in to tie around waist.

INSTRUCTIONS

For 8½ Size

Cast on 100 stitches, 34 on each of 2 needles, 32 on the third. Knit 5 rounds plain, on the 6th round * yarn over needle twice, knit 2 together. Repeat from * all around.

Knit 5 more rounds plain. Turn the edge up inside and with each stitch on the needle knit 1 corresponding loop from the edge, forming a fancy hem.

Then knit 2 and purl 2 for 40 rounds. Now knit 5 inches plain. At the 1st row of plain knitting make the seam stitch, which must be purled to the end of the heel.

After 5 inches of plain knitting is done, narrow at each side of the same stitch. (This is done by knitting to within the last 3 stitches of seam stitch; slip 1, knit 1, draw the slip stitch over the knitted one, knit 1, purl the seam stitch, knit 1, knit 2 together, knit the rest plain.) Repeat this 9 times, doing 8 rounds between each narrowing. Then knit without decreasing until the entire leg measures 20½ inches.

Heel—Divide the stitches, having 17 on each side of seam, knit and purl these stitches until the heel measures 2½ inches, slipping the 1st stitch of every row. To turn the heel—

Row 1—Slip 1st stitch, knit 17, purl seam stitch, knit 2, knit 2 together, knit 1, turn.

Row 2—Slip 1, purl 6, purl 2 together, purl 1, turn.

Repeat 1st and 2d rows alternately until there are 17 stitches on the needle, knit these 17 stitches, and on the same needle pick up 16 loops along left side of the heel, knitting each loop as you pick it up. On the 2d needle knit the 45 instep stitches, on the 3d needle pick up

16 loops on the other side of the heel and knit 8 stitches off the 1st needle or top of the heel.

Gusset—First Round—* On 1st or foot needle, knit plain to within 2 stitches of the end, knit them together. Knit along instep needle. On 3d or foot needle slip 1, knit 1, pass the slip stitch over, then knit plain to end of needle.

Round 2—Like the 1st round.

Round 3—Knit plain.

Repeat from * until there are 80 stitches in the round.

Then knit plain for 3½ inches.

Now the narrowing of the toe begins as follows: Divide the stitches equal on 4 needles, 20 on each, knit 1 stitch, slip 1, knit 1, pass the slip stitch over the last knitted 1. Knit plain to end of needle. Repeat all around. Knit round plain. Continue narrowing every other round at beginning of each needle until 4 stitches are left, 1 on each needle. Bind off and secure yarn on the wrong side.

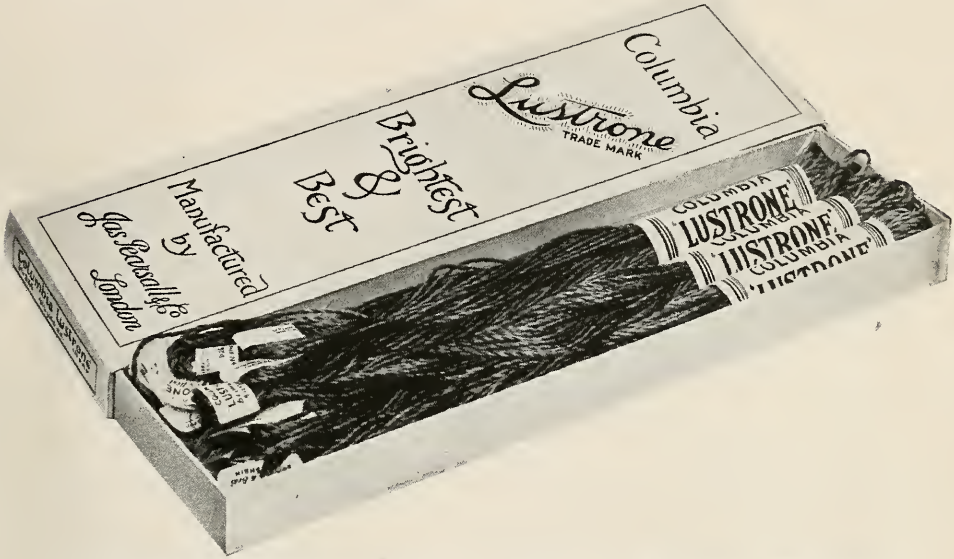
Columbia Lustrone



"Brightest and Best" Embroidery Thread

Columbia Lustrone is made in England by JAS. PEARSALL & CO., world renowned experts in the manufacture of embroidery threads

That fact alone will immediately recommend it to thousands of women.

COLUMBIA LUSTRONE is the "Brightest and Best" embroidery thread.

It actually looks silkier than silk.

And it permanently retains its lustre.

Besides that, COLUMBIA LUSTRONE is softer and more pliable than any embroidery thread you ever used.

It not only looks better when the piece is finished, but is easier to work.

You really enjoy doing art needlework with COLUMBIA LUSTRONE because it effectively and quickly brings out the design—you see you are accomplishing something with every stitch.

Another thing: COLUMBIA LUSTRONE doesn't twist easily; and if it should get tangled, it is readily untangled. All of which means quicker work.

COLUMBIA LUSTRONE is made in a splendid variety of perfect and artistic shadings which produce superb effects.

On your next piece of art needlework, be sure to use COLUMBIA LUSTRONE.

You'll get through in surprisingly short time; you'll have a more effective piece of work; and the brilliant lustre will make it such a thing of beauty as you never had before.

Directions for Washing Knitted Garments to Avoid Shrinking

1. Make warm Soap Suds (not much soap). Proper heat for the suds is just uncomfortably hot for the hands, but so as not to scald.

2. The washing and rinsing should all be done in warm—not hot water.

3. Use pure soap only; no chemicals or washing powders.

4. Do not rub soap on the garment. Put the garment through the wringer and back in the suds 3 or 4 times. Rinse out in clear water, *very thoroughly.*

5. Wash carefully, rubbing as little as possible, and *never on a washboard.*

6. *Let the Suds and Wringer do the work.*

7. Stretch the garments lengthwise and dry quickly in the open air.

Part of the reward of buying a good yarn comes to you when you wash the garment made of it. The best wool stands washing best, and the best is Columbia.

No garment, however, should be washed without the greatest care, in accordance with the directions given.

Columbia Yarns

Columbia Yarns were used exclusively in the making of all the articles shown in the Columbia Book of Yarns. This fact has been carefully considered in writing out the directions for making each article, so we wish to remind you that in order to secure effects like the pictures, with the same quantity of yarn, it is necessary to use Columbia Yarns and no others.
